# South Carolina State Report Card

State and federal laws require public schools to release report cards to the public each year. This year, the report card has been updated to reflect changes in reporting directed by the SC Education Oversight Committee. Schools will not be rated for state accountability purposes until Fall 2017 when the state will transition to a single accountability system. The following reports student performance in school year 2014-15.

## WORLD CLASS SKILLS & LIFE AND CAREER CHARACTERISTICS

Our school is helping all students develop the world class skills and life and career characteristics of the Profile of the Graduate by ...

St. James-Gaillard Elementary School is helping all students develop the world class skills and life and career characteristics of the Profile of the South Carolina Graduate by providing challenging and rewarding experiences in a safe and nurturing environment which promotes continual growth and development. At St. James-Gaillard, we pride ourselves in educating all of our students in order that they may develop skills that will enable them to be fully functioning and diversely educated individuals who are prepared to meet the challenges of life in the twenty-first century. To achieve these goals, students receive an integrated education that provides them with academic knowledge and assists them in their own personal development. We provide students with a well-rounded curriculum that is aligned with the Common Core Curriculum Content Standards. Our staff engages students in higher order thinking questions in all content areas, scaffolds students' learning experiences, differentiates instruction, and acknowledges our students' positive behaviors. Beginning of the year, mid-year, and end of the year proficiency assessments are used to help assess individual student growth in all academic areas. The data from these assessments is carefully analyzed and used to guide instruction. A strong professional development program for teachers through TAP supports our fundamental interest in developing life-long learners while sustaining our rigorous academic programs. Teachers are required to attend weekly professional development through Cluster Meetings led by a Master Teacher. Staff development focuses on instructional delivery, use implementation of effective instructional strategies, integration of technology, problem solving, and creating an overall positive learning environment for students. Teacher mentors provide additional support inside the classroom to increase classroom integration of professional development topics. Enrichment activities offer students additional opportunities to explore their interests and talents. Students are provided with leadership opportunities as members of our Safe School Ambassadors program. They meet to discuss school issues and develop ideas to improve our school environment. Dance exploratory, Spelling Bee, and the National BETA Club provide additional experiences that promote learning and leadership and build confidence in students. We believe that the elementary years are vital in developing the skills, attitudes and understanding that foster a love of learning. It takes a team to educate our children. We are constantly working as a team of teachers, administrators, parents, community members, and students to build a strong foundation for our students so that they are prepared to be leaders of tomorrow. We are dedicated to the success of each child.
